To: KD Roofing

Ken, when we were in need of a roofing company this summer, I did a lot of checking, and from past experience with other roofing companies, we decided to use your company, and we were not disappointed.

We were interested in a reputable company, who did the job, as they said they would. We were concerned that our trees, and plants would be crushed, and that there would be debris over the yard. This was not a problem; your staff kept the job site clean, and cleaned up when the job was done, exactly as you said it would be.

Therefore if you ever need a reference, please use our name.

Thank You

Jack and Anita Mackinnon
